

AL-252N

This speaker is equipped with 100 W Neodymium motor, 11 Ohms impedance. The round ABS diffuser is designed for better sound propagation and includes a black anodized L-bracket for mounting.

The Neodymium loudspeaker motor is lighter and smaller than ferrite models.

Power:	100 W
Ohm:	11
Driver:	Neodymium
Dimensions:	150 x 135 mm

AL-257N

AL-257 is a white 100 W high-performance loudspeaker, 11 Ohms impedance. Its rectangular ABS diffuser with easy-to-replace motor stands out for its durability and reliability.

It includes a flat base for mounting on vehicle roofs.

Power:	100 W
Ohm:	11
Driver:	Neodymium
Dimensions:	210 x 223 x 155 mm (Height incl. mounting kit: 180 mm)
