

## L500 Series

L500 series stands out for robust, reliable and rechargeable flashlights for professional use. L500 series flashlights are watertight and shock-resistant thanks to their aluminium and polyamide construction, with high-luminosity halogen lamps providing adjustable beam spread and a rubber optics guard ensuring shock absorption in the event of knocks and falls.

Operating with nickel metal hydride batteries, they offer durability without memory effect of conventional battery performance.

The L500 series comes in different versions: standard, flashing mode, LED, with normal or fast charger.

The new versions are Full LEDs and are available with (20) white light luminosity LED or with strobe flashing mode.

Available accessories: light-spreader cones, light-spreader paddle "STOP/ARROW SIGN", metal bracket for storage of cones and paddles, multiple charger for 5 flashlights, etc.

**\* Charger sold separately.**
