## PRODUCT HIGHLIGHT

**ALREADY ON SALE**

### LEDs WORKLIGHTS

FEDERAL SIGNAL VAMA presents its LEDs worklights range especially designed for Heavy Duty applications (heavy vehicles, platforms, excavators, tractors, road & construction, cleaning vehicles...) and can be installed on all types of vehicles. 2 types of mount are available:

**Permanent mount**

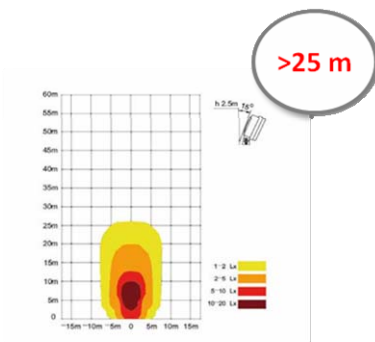

**Magnetic mount**

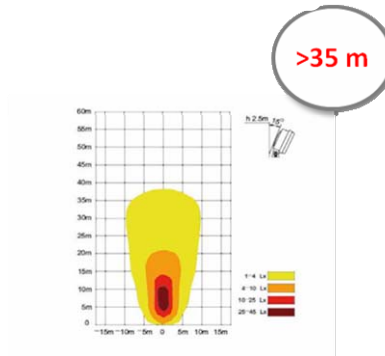

These LEDs worklights give out an excellent light distribution to operate either at short distance (flood light) or at long distance (spot light).

**Flood light**

**Spot light**

**The main added-values** of these LEDs worklights are:

- **Strong resistance to impacts & high-vibration environment:** its die-cast aluminum housing with a polycarbonate lens and stainless steel mounting provide a longer lasting product life.
- **Low consumption:** cost saving thanks to LED technology.
- **Excellent light distribution:** thanks to its 1350 lumens output.
- **Approvals:** IP 67 approved against water & dust infiltration.
